Editorial

I am pleased to declare a rapid peer-reviewed journal, Journal of Infectious Disease and Pathology, which provides researchers and scientists with an opportunity to explore and publish the basic, advanced and latest scientific advances in the field of infectious diseases and pathology. The Journal of Infectious Diseases and Pathology accepts articles on mycosis, lower respiratory infections, measles, ophthalmic diseases, obstetric and gynaecological infectious diseases, cysticercosis, dengue fever, histoplasmosis, lassa fever, norovirus infection, tularemia, West Nile virus infection, cholera, cryptococcosis, diphtheria, ebola hemorrhagic fever, listeriosis, shige virus infection. The Journals tend to prosper and publish the most complete Source of discovery and accurate details on the findings and in all areas of the field, recent advances in the mode of original papers, analysis, articles, case reports, short communications, etc. make them freely accessible online without any limitations or any other subscriptions to researchers worldwide.

The journal is indexed in RefSeek, Hamedard University, EBSCO A-Z and all published articles are permanently archived and available at OMICS International website in HTML and PDF formats. All published articles are assigned to Digital Object Identifier (DOI) - CrossRef. JIDP is going to organize 5th International Conference on Infectious

Diseases: Control and Prevention on Canada. Journal of Infectious Disease and Pathology supported "7th Asia Pacific STD and Infectious Diseases Congress" which was held on October 23-25, 2017, at Osaka, Japan. The theme of the conference is "Focus on Syndromes and Prognosis of the disease and its complications".

Authors can submit manuscripts and monitor their progress, hopefully for publication, through the online tracking system. As any report to be published publicly cumulatively covers 45 days from the date of receive. The time period for different processes including quality control, peer review, and paper preparation is taken from 4 to 5 weeks. Performance reviews and peer review processes are completed within 14 days, and the deadline for submission is just 7 days after the reviewers and editors have accepted.

During the calendar year 2020, a total of fifteen Editors, five Reviewers joined the board of JIDP and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will be beneficial to publish quality of article in the Journal of Infectious Disease and Pathology.

I would like to acknowledge the participation of all writers, reviewers and other supportive groups in the final editing of the published articles and the editorial assistant's assistance in the timely resolution of JIDP issues. I am very grateful to them for inspiring me to understand the efforts and growth of other groups that make to publish articles a successfully.
