Editor's Perspective:

I am pleased to mention that during the year 2020, all issues of volume 5 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.

Our greatest strength lies in the gold open access mode of publishing enabling the content accessible to the remotest corners of the world absolutely free of charge. The constituent journals, mentored by an internationally acclaimed editorial team regularly publish peer reviewed content in all formats of scientific reporting covering major specializations of clinical and medical science. Reviewers can access, read and download full length manuscript and submit their opinions. Editors can oversee and operate the entire

Cycle of screening, revisions, editing of the submissions. Publishers can monitor the submissions and channelize production operations such as copy editing, style sheet implementation and author proof generation.
