

Enhancing Life Excelling in Care

Arthur Liesz

General Dentist, Ilderton Dove Dental, London, Canada Area, E-mail: arthurLie@uwo.ca

The “International Conference on 15th global expert meeting on Pathology and Laboratory Malaria Medicine” hosted by conference series with the theme “Future of Pathology and Laboratory Malaria Medicine” was successfully executed during , in Bangkok, Thailand. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Microbiology, virology, immunology and Rare infectious diseases.

- “Can we predict neoadjuvant therapy response in patients with osteosarcoma?” by Dariusz Borys, Loyola University Chicago, USA

Conference series is organizing “World Congress on Microbiology and Rare infectious diseases” which is going to be held on June 23-24, 2020 Osaka, Japan. The conference is going to cover the entire field related to Microbiology, rare infectious diseases, latest research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The Conference Highlights of 2020 are as follows: Parasitic Infectious Diseases, Bacterial Infectious Diseases, Fungal Infection: From Basic Biology to Therapy Research, Viral Infectious Diseases, New Antimicrobial Drugs Discovery and Development, Molecular Microbiology, Aquatic & Marine Microbiology, Agriculture & Forest Microbiology, Medical Parasitology, Mycology, Fungal Pathogens and Associated Diseases, Virology, Viral Pathogens and Associated Diseases, Phycology, Nematology & Protozoology “Can we predict neoadjuvant therapy response in patients with osteosarcoma?” by Dariusz Borys, Loyola University Chicago, USA
