

Forthcoming International Conference on European Immunology

Kariten Gessing Jansen

Professor Borne-og Undompsykiatrisk Center, Denmark , E-mail: karsten.gjessing.jensen@region.dk

Conferences Series LLC take great pleasure in inviting the scientific community across the globe to the International Conference on European Immunology during November 25-26, 2020 at London, UK. London is the largest & beautiful tourist city of UK. UK is considered as one of the best venue for conducting conferences due its favorite tourist destinations. This meeting will explore advances in the Immunology

To provide a strong professional development opportunity for early career academicians-meeting experts awards in different categories are announced such as Expert Level which will be presented to the expert researchers who have done exceptional work in the field of Immunology. The award is considered the most distinguished award for who is passionate towards their work, willing to innovate and accept the aberrations happening in the research area with the introduction of recent trends. Followed by Professional Level which is termed as The Research Contribution Award for who should be hard working, diligent, focused and devoted to the specific field of interest. Next is the Scholar Level which will be presented to upcoming researchers and scientists in their respective field of Immunology who bring new works to their work according to the new trends in their field.

To encourage Women scientists and researchers by providing a platform where they can present their work and passion towards their research Women Scientist Award will be presented which is also termed as The Women of Science Award. To acknowledge the speakers with great presentation skills, influential research work and long term excellence Outstanding Speaker Award will be presented. Best Keynote Speaker Award will be presented to the keynote speaker who adds an extraordinary feel to the conference by their distinguished research work,

projects and strategies that will provide a new trend in the field Immunology.

Best Poster Presentation award will be presented to the research design which should be appropriate and transparent. Factual information should be kept separate from interpretations or implications. This award is given to encourage students and recent graduates to present their original research. The one who presents best thesis work will be awarded with Outstanding Masters/Ph.D./Post Doctorate thesis work which has been implemented to improve long-term excellence in the field of Immunology

These awards are a tribute to the men and women who have contributed to the progress of humanity through their dedication to science. Serving as a source of inspiration, the awards help to raise the profile of talented individuals in addition to the profession as a whole.

The global immunology market size was valued at USD 77,365.4 Million in 2018 and is projected to reach USD 143,833.2 Million by 2026, exhibiting a CAGR of 8.1% in the forecast period.

Existing market players operating in the global immunology market are focusing on constant innovations and up-gradation of their product portfolio with new and efficient product offerings for better treatment outcomes for the patients. One of the

primary reasons for the growth of the global market is the increasing incidence of immunological and autoimmune diseases. Rise in awareness regarding immunological diseases in both developing and developed nations, and the higher prevalence of immunological disorders due to environmental factors, thus propelling the of the global immunology market growth. This coupled with, increasing investments by major players in research and development activities are also boosting the growth of the market globally.

Immunology conferences going to be held during March 2020 to December, 2020 at different urban areas in Europe (, Barcelona, Madrid, London, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh... Many More..!!!

Kind Regards,
