On behalf of the Board of the Journal of Analytical & Bioanalytical Techniques and my co-editors, I am glad to present the Volume 11, Issue 1 of the journal. The journal established in 2010 has now published 10 volumes; approx. of five issues in a year. The journal is indexed in Directory of Open Access Journals and also by different academic forums. Average download per article is increasing and on an average downloads per paper. All these are promising signs. We could reach this stage through the constant support of Board Members and intellectual generosity of the readers and contributors (authors and reviewers).

One of the objectives of this journal is to encourage publication from different streams of research that helps to enrich further the discourse on Scientometrics. Readers can particularly notice progress made in this direction through the Book Reviews which is emerging as an important section of this journal. We take this opportunity to thank the authors/publishers for sending their books for review and excellent book review by authors.

We are expanding our editorial board for addressing the gaps and further enriching this journal.

All works published by OMICS International are under the terms of the Creative Commons Attribution License. This permits anyone to copy, distribute, transmit and adapt the work provided the original work and source is appropriately cited. Journal of Analytical and Bioanalytical Techniques strongly supports the Open Access initiative.

All published articles will be assigned DOI provided by Cross Ref. Journal of Analytical and Bioanalytical Techniques will keep up-to-date with latest advances in the field of Analytical and Bioanalytical Techniques. Abstracts and full texts (HTML, PDF and XML format) of all articles published by Journal of Analytical and Bioanalytical Techniques are freely accessible to everyone immediately after publication.

The objective of Journal is to publish up-to-date, high-quality and original research papers alongside relevant and insightful reviews. As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging

Needless to say, any papers that you wish to submit, either individually or collaboratively, are much appreciated and will make a substantial contribution to the early development and success of the journal. Best wishes and thank you in advance for your contribution to the Journal of Destination Marketing & Management.

The editorial team has followed strict guidelines to avoid any potential bias and conflict of interest. None of the reviewers had any conflict or competing interest.

The author(s) and copyright holder(s) grant(s) to all users a free, irrevocable, worldwide, perpetual right of access to, and a license to copy, use, distribute, transmit and display the work publicly and to make and distribute derivative works, in any digital medium for any responsible purpose, subject to proper attribution of authorship, as well as the right to make small numbers of printed copies for their personal use.

A complete version of the work and all supplemental materials, including a copy of the permission as stated above, in a suitable standard electronic format is deposited immediately upon initial publication in at least one online repository that is supported by an academic institution, scholarly society, government agency, or other well-established organization that seeks to enable Open Access, unrestricted distribution, interoperability, and long-term archiving (for the biomedical sciences, PubMed Central is such a repository).

As a member of Publisher International linking Association, PILA, Journal of Analytical and Bioanalytical Techniques (of OMICS International) follows the Creative Commons Attribution License and Scholars Open Access publishing policies.

As our readers know, Journal of Analytical & Bioanalytical Techniques is the most preferred and highly accessed Journal. All scientific manuscripts including editorials are subjected to peer-review. Journal functions on principles of scientific excellence, publication ethics and transparency. It makes mediatory that every article is submitted only through the online manuscript submission and review system.

Now to meet the high standard researchers, Journal also focusing on social media to approach authors in effective to generate more relevant articles in its field and with an objective to make Authors research accessible to the rest of the world. Daily updates and highlights of Journal are being displayed in respective social media accounts regularly so that no author should miss the regular happenings of the Journal.

We hope all of your valuable works contributed to our Journal to be continued forever and always want your hands in our esteemed Journal Journey and we strive continuously to give our best.
