

Journal of Marine Science: Research and Development

Elisabetta Tosti*

Animal Physiology and Evolution Laboratory, Stazione Zoologica Anton Dohrn Villa Comunale, Italy

Introductions about the journal

Journal of Marine Science: Research & Development is a omics publication. It is an Open Access Publisher that aims to publish studies on the ocean, its ecosystems and its life forms as well as the coastal environments, oceanic currents and the sea floor.

The Journal provides the most complete and reliable source of information on the discoveries and current developments as original articles, review articles, case reports, short communications, etc. in all areas of the field and making them available online free of any restrictions or subscriptions to the researchers worldwide.

Introduction about editor in chief

For the last 10years, published papers has been under the strong and able leadership of our Editor-in-chief's Elisabetta Tosti: Senior scientist in the field of Marine Biology and Ecotoxicology, invited speaker at numerous international conferences and seminars. Scientific reviewer for more than 35 international referenced journals. Author of over 100 papers, 15 invited reviews, 6 book chapters on international referenced journals. Author of 1 book on in vitro fertilization, Editor of an E- book. Coordinator of Master courses and summer school, she has trained degree, PhD students and post doc fellowship. We are thankful to Editor-in-chief for her continuous support and dedication towards the journal will not lost. The publication office of the Journal of Marine Science Research and Development including me, we all are very honored and grateful for her selfless devotion towards the journal.

We provide a rapid turnaround time possible for peer reviewing and publishing the article online and to disseminate the articles freely for research, teaching and references purposes.

Scope of the journal

For the last 10years, published papers has been under the strong and able leadership of our Editor-in-chief's Elisabetta Tosti: Senior scientist in the field of Marine Biology and Ecotoxicology, invited speaker at numerous international conferences and seminars. Scientific reviewer for more than 35 international referenced journals. Author of over 100 papers, 15 invited reviews, 6 book chapters on international referenced journals. Author of 1 book on in vitro fertilization, Editor of an E- book. Coordinator of Master courses and summer school, she has trained degree, PhD students and post doc fellowship. We are thankful to Editor-in-chief for her continuous support and dedication towards the journal will not lost. The publication office of the Journal of Marine Science Research and Development including me, we all are very honored and grateful for her selfless devotion towards the journal.

We provide a rapid turn around time possible for peer reviewing and publishing the article online and to disseminate the articles freely for research, teaching and references purposes.

Journal of Marine Science: Research and Development (JMSRD), a broad-based journal was founded on two key tenets: To publish the most exciting researches with respect to the subjects of Marine Science. Secondly, to provide a rapid turn-around time possible for reviewing and publishing and to disseminate the articles freely for research, teaching and reference purposes.

In today's wired world information is available at the click of the button, curtsey the Internet. Journal of Marine Science: Research & Development -Open Access gives a worldwide audience larger than that of any subscription-based journal in OMICS field, no matter how prestigious or popular, and probably increases the visibility and impact of published work. Journal of Marine Science: Research & Development -Open Access gives barrier-free access to the literature for research. It increases convenience, reach, and retrieval power. Free online literature is available for software that facilitates full-text searching, indexing, mining, summarizing, translating, querying, linking, recommending, alerting, "mash-ups" and other forms of processing and analysis. Journal of Marine Science: Research & Development -Open Access puts rich and poor on an equal footing for these key resources and eliminates the need for permissions to reproduce and distribute content.

Journal of Marine Science: Research & Development will keep up to date with latest advances in the field and papers published in Journal of Marine Science: Research & Development will reach the readers directly by email for free of cost.

Distributed widely through the Internet.

Benefits of our journal

Journal of marine science Research and development is committed to disseminate research output to the scientific community without any hassle. Articles published under our journal are freely available throughout the world, ensuring the author's presence through his/her contribution worldwide.

Focus

We would like to focus on Scientists, Researchers, Scholars, Professors and associate them in publishing.

Advancements, developments on the marine science and would like to increase the publishing rate to larger extent than that of the previous years.

Role of digital marketing in marine science

Journal promoting the content globally by Digital marketing sources like Twitter postings, Facebook, Instagram and Emails.

Acknowledgement

Heartily thanking Authors, Reviewers, & Editorial members who continuously supporting the journal by giving their valuable time and effort. Their knowledge not only helped the authors but also it made the Journal reputation in heights.
