### Editorial

I am joyous to divulge that Journal of Infectious Disease and Pathology (JIDP) is an international journal and that gave me chance to bring forward the achievements of the journal in the year 2017. JIDP has gaining more readers and citations. The entire issue was published by JIDP at the time and the preprints were also released and dispatched online within 30 days after the article was published online. This journal provides the authors with an open access forum to report their research results and thus aid in supporting field work. The infectious disease that has risen or is threatening to increase in recent years is known as emerging. Such diseases involve new infections, previously unrecognized infections and reappearing of old infections due to antimicrobial resistance and unhygienic conditions causing public health problems. Journal of Infectious Disease and Pathology (JIDP) is an open-access, peer-reviewed medical journal covering research on different aspects of mycosis, lower respiratory infections, measles, ophthalmic diseases, infectious diseases in obstetrics and gynecology, cysticercosis, dengue fever, histoplasmosis, lassa fever, norovirus infection, tularemia, Western Nile virus infection, cholera, cryptovirus infection etc. Journal of Infectious Disease and Pathology publishes papers on a quarterly basis in all fields related to it. The related journal of infectious disease and pathology are Medical infectious diseases and science, infectious diseases and diagnosis, infectious diseases and rehabilitation, infectious diseases and care, infectious diseases and infectious diseases, pediatric diseases. JIDP cover broad number of

journal that's why the scope of this journal is not limited. Authors can submit manuscripts and monitor their progress, hopefully for publication, through the online tracking system. As any report to be published publicly cumulatively covers 45 days from the date of receipt. The time period for different processes including quality control, peer review, and paper preparation is taken from 4 to 5 weeks. Performance reviews and peer review processes are completed within 14 days, and the deadline for submission is just 7 days after the reviewers and editors have accepted. JIDP received 1 review article in issue 2 of volume 2 and 1 review article, 2 research articles, 2 case reports and 1 editorial in issue 1 of volume 2. JIDP is going to accomplish conference in Japan, Canada and Netherlands. JIDP organises 3000+ global conferenceseries event every year across USA, Europe and Asia with support 1000 more scientific scientists. For latest updates on what's going on in the journal, Journal uses online broadcasting and multiple social media outlets such as Twitter, LinkedIn and Facebook to make people aware of the Infectious disease and Pathology related topical issues. I would like to acknowledge the involvement of the contribution made by all the writers, reviewers and other supportive communities during the final editing of the published articles and the assistance provided by the editorial assistant in timely resolution of JIDP problems. I am very grateful to them for helping me consider the work and development of other peoples which make this newspaper a success.
