

Past Conference Report on 20th World Congress on Analytical and Bioanalytical Chemistry

Seyed Hamed Mahdavi,
Email: Mahdavi.H@arpc.ir

After successful completion of Analytical Chemistry 2019 during October 30-31, 2019 at London, UK. We are pleased to welcome you to "Analytical Chemistry 2020". The congress is scheduled to happen on August 18-19, 2020 at the beautiful city of London, UK. This Analytical Chemistry 2020 conference will give you an exemplary experience and enormous ideas in the research field.

The perspective of the Analytical Chemistry Conference is to establish research works for people to understand how the treatment techniques get advanced and how the field get emerged in recent years.

The sessions to be discussed in the conference include Advanced Analytical and Bioanalytical Techniques, Novel Optical Sensor and Biosensors, Titrimetric, Gas Chromatography, Scanning Electron Microscopy, DNA Analysis, Thermal Analysis Techniques and goals of the Analytical technique etc.

The expected participants to attend the conference are Eminent Scientific Professionals in the field of Chemistry, Faculty (Professors, Associate Professors, and Asst. Professors), Chemistry Colleges & Training Institutes, Chemistry Associations and Societies, Chemists and Business Entrepreneurs, Manufacturing Chemical products Companies, Chemistry Students, PhD Scholars, Graduates and Post Graduates, Directors, CEO's of Organizations. Association, Association presidents and professionals, Noble laureates in the field of Analytical Chemistry, Research Institutes and members, CRO and DATA management Companies, Data Management Companies.

20th World Congress on Analytical and Bioanalytical Chemistry (Analytical Chemistry 2020), which will be held during August 17-18, 2020 at London, UK is now an

established event, attracting global participant's intent on sharing, exchanging and exploring new avenues of Analytical & Bioanalytical Chemistry and related research and latest developments. The event will have 5-6 world level (Highly cited class) plenary speakers, established Keynote speakers, active Invited speakers and fresh contributed speakers. In addition, variety of poster presentations along with workshops and special sessions would be interested in audience.

The aim of the Analytical Chemistry 2020 is to promote quality research and real-world impact in an atmosphere of true international cooperation between scientists and engineers by bringing together again the world class researchers, International Communities and Industrial heads to discuss the latest developments and innovations in the fields of Analytical & Bioanalytical Chemistry.

We sincerely hope that Analytical Chemistry 2020 serves as an international platform for meeting researchers from around the world, widen professional contact and create new opportunities, including establishing new collaborations.

Here is the glimpse of previous conference:

The people who have missed attending the past Analytical Chemistry 2019 are most welcome to present your

research ideas in Analytical Chemistry 2020. This conference will help you to improve networking with the eminent people in the field of Chemistry.

The conference aims to have great Young Researchers Opportunity:

We make sure to support and motivate 'Young Researchers' by:

- Establishing their academic and professional relationships.
- Improving their morale and confidence of presenting research in an international platform.
- Interacting with expertise in their respective departments.
- Clearing your inhibitions of adjusting to the foreign environment.
- Providing a holistic experience of academic tourism.

Our organizing committee members would like to invite all the potential personalities to participate in the Analytical Chemistry 2020 to develop and enhance the field of Analytical and Bioanalytical Chemistry.

Analytical Chemistry 2020 conference has lots of scientific sessions, workshops, Oral presentation, poster presentation, video presentation, etc

Make your footprint in the Analytical Chemistry 2020 to explore the novel Approaches to Analytical and Bioanalytical Techniques at London, UK.
