

Past Conference Report on Green Chemistry

We are delighted to inform you that Webinar on Green Chemistry Scheduled on april 19-20,2021 at 10:00 AM (UTC +5:30) has been successfully hosted with eminent speakers around the world. The summit will be forward with the theme Green Chemistry is the Key for the future of Chemistry.

Scientific sessions Green Chemistry Webinar:

- Reduce derivatives
- Design for safer Chemicals, solvents and auxiliaries
- Design of energy efficiency in chemical processes
- Role of catalysis in sustainable chemistry

- Chemical toxicology
- Combating environmental pollution
- Atom economy
- Design for energy efficiency

Eminent Speakers at Green Chemistry Webinar:

PhilipCamp philip.camp@ed.ac.uk

NeilMcKeown Neil.McKeown@ed.ac.uk

JohnPyleFRS john.pyle@atm.ch.cam.ac.uk
