

Research and Innovations in Medicine to Save Lives

Ahmed Osam Shalaby*

Professor, Mansoura University, Egypt

Surgery Conferences Committee is glad to announce our upcoming "6th World Congress on [Anesthesia](#) and Critical Care" during October 21-22, 2020 at Paris, France

[Anesthesia 2020](#) provides you with valuable accretion for your work. At Anesthesia 2020, Attendees will pick up the chance to learn and get advancements about the current information in Anesthesiology Explore the trends regarding Anesthesia, Critical Care and discover the results regarding your greatest challenges and share the information back to your physicians for a more informative discussion This is an international meeting where Anesthesiologists, Pediatric Anesthesiologists, Veterinary Anesthesiologists and all the medical professionals can meet their colleagues from across the globe in building their network, to achieve leadership and management skills, to develop analytical and research skills.

Why Attend?

"6th World Congress on Anesthesia and Critical Care" is the leading Conferences of the World united by recognized academicians in the field of [Anesthesiology](#), critical care researchers, educators, health professionals, professors, academic scientists, industry researchers from across the globe which is an exclusive platform for sharing the knowledge and information and B2B gatherings with industrialists and potential clients to make a sprinkle and mark acknowledgment at this occasion. Latest improvements in Advanced Anesthetic Care and Critical Care can be discussed and it will give an exceptional opportunity to the individuals by

- Keynote gatherings by Prominent Professors, Doctors
- Poster/Oral presentations by Young Researcher
- Novel procedures to profit your research
- Addresses from prestigious speakers
- Excellent platform for Global business and Networking openings
- Meet the editors of refereed journals, Societies and Association applicants over the Globe

The theme of the conference is mainly developed for researchers, physicians, doctors, surgeons, pharmaceutical experts, nurse practitioners, young researchers and students to share their research work to the gathering at the Yokohama, Japan. We also invite Presidents, CEO's, Policy makers, delegates and industrial representatives from the Pharma and Healthcare sectors for making the conference a unique platform to share knowledge, ideas and to network with the interactive Keynote lectures, plenary talks, workshops, symposiums,

poster presentations, exhibitions and B2B networking.

General anesthetics bring about a reversible loss of consciousness and analgesia in order for surgeons to operate on a patient. Their use is commonplace, but how they produce their effect is still not fully understood. General anesthesia is, essentially, a medically induced coma, not sleep. Drugs render a patient unresponsive and unconscious. They are normally administered intravenously (IV) or inhaled. Under general anesthesia, the patient is unable to feel pain and may also have amnesia.

The Major sessions of the 2020 conference includes Polymer Marketing, Industrial aspects of Polymers, Polymer Recycling, Polymers for Drug Delivery, Nanomaterial and Nanotechnology, Polymer+3D Printing, Polymer Rheology, Polymers for energy applications, Biodegradable polymers, Biopolymers, Commercial Application of Biopolymers Polymer Degradation and Stabilization, Polymer Applications, Renewable resources and bio based polymers, Polymer Manufacture, new synthetic ways and advances in catalysis.

The Conference Series Polymer Science and Technology Conferences embrace research, Academic professors, Industrial Chemists, scholars who endeavor to disseminate their research experience to escalate the forthcoming research ideas. Conference Series Ltd Organizes 1000+ Global Events Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 100000 reputed scientists eminent personalities, as editorial board and organizing committee members.
