

## THE ROLE OF PUMMARIA INDICA AND AJUGA BRACTEOSA IN THE TREATMENT OF SCABIES

**Dr Said Hussain Shah**

SHARIF ABAD KABAL SWAT KPK PAKISTAN

### Abstract:

The objective of the Research paper is to identify the treatment of Scabies in homeopathic. The research Project is experimental and descriptive. The population in the research is the patients of scabies. The researcher selected twenty patients of scabies in TehsilKabal of district Swat as a sample. The sample was kept under controlled observation. Primary and secondary data was collected about the scabies and its treatment. Different medicines were prescribed to a group of the sample consisting of 10 patients. The second group consisting of 10 patients of the sample was prescribed the mixture of PUMMARIA INDICA and AJUGA BRACTEOSA. Both the groups were interviewed and observed by the researcher. The research finds out that the mixture of PUMMARIA INDICA and AJUGA BRACTEOSA is more effective treatment of scabies than the treatment prescribed by the previous research works.

### Biography:

Dr.Said Hussain Shah is the researcher at the SHARIF ABAD KABAL SWAT KPK PAKISTAN. His article entitled THE ROLE OF PUMMARIA INDICA AND AJUGA BRACTEOSA IN THE TREATMENT OF SCABIES has been partially presented at the 2<sup>nd</sup> International Conference on Biosimilars & Pharmaceuticals, February 12-13, 2020 Auckland, Newzealand on the theme around Developmental Strategies & New Horizons in Biosimilars through a Decade.
