### Commentary

We know that Corona Virus develops in animals, birds and human body. Now it is a pandemic and many people are dying with each passing day and a number of patients are increasing every hour. If we do not control it then it is dangerous for humanity. As we know that incubation period for COVID 19 is 1 to 14 days and it lives in the environment for 12 to 14 hours. The only solution is social distancing. Because till now no proper medicine for it.

Today covid-19 pandemic is deadly big that we cannot imagine who and world scientist fail to search proper medicine or substitute since 6th month and till now about 3,62,148 known death taken place in the world according to Danik Bhaskar Daily newspaper India.

Reason behind it that we are bond by law system that we cannot give any medicine or substance without approval of WHO and other compering authority. World's scientist are working in older pattern to search substitute but they not want to take new medicine because it need to go very long process and go through proper channels it is very lengthy process and time consuming. Now no law and technic ready to save lives. My article of Treatment of COVID-19 by bile juice publish in medical journal and I sent my method of treatment to many Government and health department. We know that Virus develops in plants animals, birds and humans' body. Now COVID-19 is a pandemic and many people are dying with each passing day and a number of patients are increasing every hour.

### Types of Corona Viruses

(1) Common Corona Viruses:- (1)229E (alpha) (2) NL63 (alpha) (3) OC43 (beta) (4) HKU1 (beta)

(2) Less Common Corona Viruses:- (1) MERS-COV (beta) (2) SARS-COV (beta) SARS-COV-2 which causes COVID-19

### Structure of Covid-19

It is composite protein/glycan shield by cryo (Spike Protein).

### Mode of Action

As we know that COVID-19 affects our mouth, nose, neck, lungs, blood, heart, and kidney. It's weak our immunity through blood.

I want to share a natural method to cure COVID-19 and boosts immunity by bile juice.

As we know that it is shield by proteins and glycan and bile juice secret in duodenum by nature its function is to break the protein and fats (emulsify) and supports digestion in small intestine and Ethyl alcohol/rectified spirit have capacity to absorb all ingredients and protect to be waste. If we use this combination then people will get strength and bile juice works as a stem cells and rapidly runs in blood. It helps in reducing blood sugar level and fats in the blood as it boosts functions of Pancreas, liver and correct metabolism. Bile juice produce in every living creatures and produce by liver and no any harm full substance present in it. Bile juice contain deoxycholic acid its break the covid-19 DNA and mRNA without harm of human DNA and RNA.

Take any healthy animal; birds and fish chopped bile juice and mixed it with 10% Bile juice and 90% ethyl alcohol/rectified spirit or 10% bile juice and 90% corn syrup and shake well in a bottle and keep it for 12 hours and after 12 hours all particles will sit at the bottom and we can use 5 to 15 drop upper site extract by oral admission and repeated dose along with other drugs, it can develop immunity. It is best tonic in the World.

I found that its cure blood clotting factors, liver disease, allergy, virus, bacteria and many blood related disease. It is my humble request to WHO and every Government and private agency to experiment on this topic and save the world by COVID-19.

I used it and found very good result. I also know some herbal plant that can cure COVID-19

We can use above method. It will give result in five minutes. Although the taste is bitter but it is lifesaving and vaccines can be made using bile juice purified liquid.
