

Tropical Medicine 2020

Putu Sutisna

Professor, Jalan Kerta Usada IV No 36, Sidakarya, Indonesia, E-mail: psutisna@yahoo.com

"9th International Conference on Tropical Medicine and Infectious Diseases", stapled on Singapore during August 26-27, 2020. The conference program focuses on "Tackling Challenges and Future aspects on Tropical Medicine and Infectious Diseases". In collaboration with its Editorial Board Members along with institutional partners this conference includes various people presenting their research in the form of Keynote speeches, Speaker talks, Video presentations, Symposia, Workshops, Poster Presentations, E-Posters and Exhibitions covering a range of topics and important issues which may be helpful for us all from the research to the practical implementations.

[Tropical Medicine 2020](#) is a technical Conference which includes keynote presentations, general oral presentations, poster sessions, workshops, exhibitions, panel discussions from specialists of Epidemiologists, Pathologists, Infectious diseases departments, gastroenterologists, neurologists, pediatricians and other partnered arenas of Tropical Science.

The main perspective of this conference is to provide a great platform, Academicians, Researchers, Scientists, Industrial Professionals and students to unleash their research work and create a forum for effective sharing of ideas to face the future global challenges from the perspective of rising trends in engineering and technology. [Tropical Medicine 2020](#) highlight the ever increasing and basic need to energize creative engineering solutions with potential for worldwide reach. This would be a wonderful opportunity for networking and will cultivate everlasting friendship among fellow partners

[Tropical Medicine 2020](#) is the only meeting where you can learn about Tropical Medicine and Infectious Diseases from a variety of perspectives, both research-based and clinical. We will discuss the newest therapeutic techniques and diagnostic tools as well as the most up-to-date research on genetic, etiology, diagnostic, clinical aspects and novel therapies of Infectious diseases.

With members from over the world focused on learning about Tropical Medicine and its advances; this is your best opportunity to reach the largest assemblage of participants from the Disease biology community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new advancements and developments in Infectious Diseases, and receive name recognition at this 2-days event.

Keynote Speakers and their Talks:

Title: Influence of antiseptics and their combinations on microbial DNA and biofilms

Anna G Afinogenova, St. Petersburg State University, Russia

Title: The clinical impact of the end of treatment viremia in Taiwanese patients with CHC treated with DAAs

Chia-Yen Dai, Kaohsiung Medical University, Taiwan

Title: Methicillin resistant Staphylococcus aureus: A molecular insight of the predominant clones causing central nervous system infections, an experience from a Tertiary Neuro-Care Centre, South India

H B Veena Kumari, Neurocare Institute, India

After the huge optimistic response from the scientific fraternity and renowned personalities from across the world, Conference Series is happy to announce the "9th International conference on Tropical Medicine and Infectious Diseases 2020 which is going to be held on August 26-27, 2020 in Singapore.
