

Young Research Forum: Young Scientist Awards for European Biosimilars Summit October 08-09, 2020 | Milan, Italy

Shilpa Deshpande

Associate Professor, Department of Pharmacology, P.J.L college of Pharmacy, India, E-mail: shilpadp87@yahoo.co.in

Hopefully we have completed with a huge response on Biologics Pharmaceutical with a great applause. The conference proceeds with scientific sessions and key note lectures and continues with upcoming conference.

10th [European Biosimilars Summit 2020](#) initiates to encourage "Latest Biologics- Pharmaceuticals-2020". This is going to held in Milan, Italy, October 08-09, 2020. The theme of the conference is "Latest Biologics-Pharmaceuticals-2020" The young research and young scientist competition is designed to showcase the research talents of graduate Research candidates and young scientists.

Theme of the conference is "[Latest Biologics-Pharmaceuticals-2020](#)" it includes all key note sessions, oral, posture, video presentations and exhibitors at the conference. We also encourage young forum researchers to the conference as well students.

The main highlights of the conference were: Latest Biosimilars in Europe, Bio Equivalence Assessment, Intellectual Property Rights, and Biosimilars Research Pipeline, Clinical studies on Biosimilars and more.

As per support we have organizing committee members, editorial members, media partners various internal organizations and we include all over previous attendees for the conference. We also encourage all the young scientist and young research forums and students to show their skills the students from many universities /Ph.D. scholars / all the young scientists from all over the field includes in this conference.

The Young Research Forum offers for all young researchers and scientists and students for possibility to meet and discuss about their own research topics and methodologies to share and develop their ideas, learn from each other and gain knowledge from senior professors. The Research work should be unique and it the abstract has to be submitted to the Organizing committee before the conference scheduled and it should be unique and it will be done quality check by the committee. Then they will provide you the

Acceptance letter for your presentation then you were eligible to speak at the conference sessions time as a young research forum.

The Young Researcher Sessions are scheduled at the 10th [European Biosimilars Summit 2020](#) initiates to encourage "Latest Biologics- Pharmaceuticals-2020". This is going to held in Milan, Italy, October 08-09, 2020. to provide a unique platform for all the Young Investigators/ Researchers for presenting their latest research projects with an depth analysis and experience they had according the Science Access cordially invites the [Young Researchers](#) from all the Institutes/Universities/ Industries/pharma companies all over to present a short presentation during the forum. The presentations should be Minimum of 20-25 Minutes duration in related scientific tracks. Then they will be 5 minutes question hour. Then you have to explain all the work you and done and your experiences in the research time Therefore, the presenters are use encouraged to give comprehensive and dynamic talks at the conference sessions time. Some of the Applications has selected based on past research productivity and future promises on the related research they have done.

Participation in the symposium is open to all graduate students who are graduate in field of Biosimilars from certified universities doing advanced research in the Biosimilars. Applicants must be recent graduated students.

The selection Process will be done by the [Organizing Committee](#) that which of the research work will be unique and latest research will be awarded by the Young research and young scientist award from the Biologics- Pharmaceuticals-2020.

The awarded individuals will be getting the cash prize from the committee. And more over you they are getting the CPD Accredited certificate for your research work and it will be published in our journal with free of cost.

Benefits:

- You can showcase your research via [Oral presentation](#).
- You can learn the latest technology and advancement in the Biosimilars.
- You can learn the Career development in Biosimilars
- This Young research forum gives the pertinent and timely information for who were conducting the research and also who see the benefits from the research.
- This Helps in Collaboration among all the young researchers.
- The Young Research forum gives an Opportunity for collegial interaction with all other established investigators across the world.
- Share your ideas for both mentors and peers.
- Actively distribute their information about their research work and promotes their benefits of career matters and education.
- Opportunity for the entire [young Forum](#) to learn about the profession and about research work of the peers to increase their capacity as multidisciplinary.
- Young research award certificate with CPD accredited and award recognition and momentum to the best young Research forums.
- It's the best platform to share your research work with all the peers.

Eligibility:

- Young investigators (Post-doctoral Fellows, junior faculty with a minimum of 5 years of experience, Post -Graduate students, Trainees, young scientist).

- All submissions should be in English.
- Age limit -35 years.
- No one of the authors should be in [faculty position](#) or senior position.
- The topic should be selected from the sessions of the conference.
- Every individual have to submit only one paper (As a first author or Co-author).
- The abstract should be accepted by the Organizing committee.

The application includes the following items:

- Resume / CV
- Complete undergraduate and graduate transcripts with GPA.
- Letters of recommendation from 2 major degree professors (one letter preferably from the graduate advisor).
- Abstract of the proposed presentation (The abstract should be entered via the ACS / On-line System).

For more details of the conference visit: <https://biologics.pharmaceuticalconferences.com/>

We look forward to meet all the young Post-doctoral Fellows, junior faculty, Post -Graduate students, Trainees, young scientist at the [Biologics-Pharmaceuticals-2020](#)
