

Young Researchers Forum of World Summit on Blood Glucose Monitoring

Elaine Patterson,

Senior R&D Scientist, DuPont Nutrition and Biosciences, Kantvik, Email: Finlandelaine.patterson@dupont.com

[Diabetes expo 2020](#) invites scholars, researchers, academicians, students and corporate entities across the globe to join at the World Summit on Blood Glucose Monitoring (Diabetes expo-2020) during October 04-05, 2020 in Beijing, China. The conference focuses on "Blood Glucose Monitoring"

[Diabetes Expo 2020](#) composed of well-organized scientific sessions, plenary sessions, Oral presentations, Poster presentations, one to one meeting, networking sessions, e-poster presentation, Young Researcher Forums (YRFs), B2B meetings, International workshops, Symposiums, Industrial sessions, Exhibitor presentations etc."

About Conference

Diabetes is a group of metabolic maladies where the individual has high blood glucose. It is a long-term disorder that causes high blood sugar level Diabetes occurs either because insulin production is scanty in the pancreas, or because the body's cells do not react properly to insulin, or both. It develops when glucose can't enter the body's cell to be used as fuel and it occurs due to lack of insulin to unlock the cell or there is no insulin or insulin is there but it's not functioning properly. Symptoms of diabetes are often urination, extreme fatigue, unclear vision, slow healing process, obesity, feeling very thirsty and hungry and weight loss in type 1 diabetes. Diabetes is a lifetime disorder that causes a person's blood sugar level to become too high. Diabetes has many complications associated with it. It increases the risk of many serious health problems but with the correct treatment and recommended lifestyle changes, many people with diabetes are able to prevent or delay the onset of complications

Benefits

- Young Scientist Award recognition certificate and memento to the winners

- Our conferences provide best Platform for your research through oral presentations.
- Learn about career improvement with all the latest technologies by networking.
- Young Scientists will get appropriate and timely information by this Forum.
- Platform for collaboration among young researchers for better development.
- Provide an opportunity for research interaction and established senior investigators across the globe in the field
- Share the ideas with both eminent researchers and mentors.
- It's a great privilege for young researchers to learn about the research areas for expanding their research knowledge

Eligibility

- Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty with a minimum of 5 years of research experience
- Presentation must be into scientific sessions of the conference.
- Each Young Researcher / Young Scientist can submit only one paper (as first author or co-author).
- Age limit- Under 35yrs
- All submissions must be in English

Diabetes Expo 2020 provides best platform to expand your network, where you can meet scientists, authorities and CROs from around the world. It's your time to grab the opportunity to join Accounting 2020 for promoting your research article and to facilitate prestigious award in all categories. In this fame, we look forward for your contribution and astonishing dedication to make our Diabetes Expo 2020 more successful.

The prize winning papers will be considered for publication in the international journals once the paper is subjected to standard review procedures.

How to apply

Candidates applying for the Young Researcher Award should send their resume, and a letter of recommendation (from a research adviser for students or a senior faculty member) to generalpediatrics@eventqueries.com along with the online application form below
