

2020 conference Announcement of 6th International Conference on Wireless, Telecommunication & IoT September 28-29, 2020 | Barcelona, Spain

Veselin Borisov Demirev

Technical University, Bulgaria, E-mail: demirev_v@tu-sofia.bg

[7th International Conference on Wireless and Satellite Communication \(Wireless Conference 2020\)](#) is going to become a huge platform to all the Engineers, Researchers, Innovators, Scientists, Professors, Academics students, and the expertise in the field of Wireless to share and explore their views on their research and case studies with the global experts. The conference is going to be held during May 21-22, 2020 at London, UK which revolves around the theme "Future of Communication in Today's World".

[Wireless 2020 conference](#) is to study and share knowledge on Wireless, Telecommunication & IoT. This conference offers an open door for trade of contemplations and definitive perspectives by chief scientists just as business head honchos and investors in this animating field. Excellent keynote speakers and well known foremost scientists and experts from over the globe will be foreseen to share their insight. We undertake to bring people from various fields and to cause a setting wherein they too can team up synergistically and in a perfect world make new logical outcomes. The Wireless events spread a wide scope of subjects related to advanced Wireless and Telecommunication applications while meeting on a single stage. The Wireless meeting offers key insights into cutting-edge applications from global experts, start-ups and the winners of Europe's major innovation competitions for Wireless submissions.

Wireless 2019 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the field of Wireless, [Telecommunication](#) & IoT. Guolin Sun, University of Electronic Science and Technology of China, China presented a Keynote speech on "Resource slicing and customization in 5G RAN with dueling deep Q-Network" and Veselin Borisov Demirev, Technical University, Bulgaria presented a Keynote speech on "Spatial

correlated microwave technologies: the future of the broadband mobile communications".

With the grand success of Wireless 2019, we are glad to announce our next upcoming conference [Wireless 2020](#) at Barcelona, Spain on September 28-29, 2020. The conference will serve as a platform to bring together leading Engineers with different specialties. Wireless 2020 Conference will discuss on the topics such as 5G and Beyond, [Telecommunication](#), Wireless Communication, Internet of Things (IoT), Technology for Wireless, Mobile and Wireless Network, Satellite Communication. To encourage Women scientists and researchers by providing a platform where they can present their work and passion towards their research Women Scientist Award will be presented which is also termed as The Women of Science Award. To acknowledge the speakers with great presentation skills, influential research work and long term excellence Outstanding Speaker Award will be presented. Best Keynote Speaker Award will be presented to the keynote speaker who adds an extraordinary feel to the conference by their distinguished research work, projects and strategies that will provide a new trend in the field of Wireless, Telecommunication & IoT.

Furthermore, the share of smartphones as a proportion of Wi-Fi device shipments is also set to fall below 40 percent by 2024. These devices are anticipated to grow from around 2% of the Bluetooth market in 2018 to over 8.5% by 2024.

EEE & Engineering Conferences going to be held during January, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh.... and Many More..!!!
