

## 2020 Conference Announcement of the 25th International Conference on Dermatology & Skin Care

**Dr. Natalia Spierings**

Consultant Dermatologist, Dermatological & Mohs Micrographic Surgeon, United Kingdom, E-mail: [nspierings@doctors.org.uk](mailto:nspierings@doctors.org.uk)

Conference Series organizes the [25th International Conference on Dermatology & Skin Care](https://www.conferenceseries.com/2020/04/25th-international-conference-on-dermatology-skin-care/) on **April 27-28, 2020 on Amsterdam, Netherlands**. The milestone of the conference is to build strong networking with individuals from different countries and exchange the knowledge they have gained in the field of [Dermatology](#) and [Skin Care](#). After all, Dermatology is a field that is growing steadily and has the potential value for the products in the world market. The organization provides a great chance for the experts who seek future in the field of Dermatology and shows various applications and possibilities from different minds.

The most exciting part of the conference covers the scientific sessions, workshops and symposia. People from the industry also have a vital role to attend the conference to showcase, advertise and promote their products. Expos and Exhibitions make the conference livelier and more interactive. Highly affiliated people who attend the summit take the event into a quality international gathering platform to deliver the speech about their experience and accomplishment to the right audience. Conference Series hope this conference can outrun the complications and limitations of skin related problems by analysing the current scenario of the field.

Previous Global Summit on Dermatology and Cosmetology organized in Edinburgh, Scotland on September 09-10th, 2019 was a successful and rewarding platform for the attendees, based on the theme "*Catenating the breakthroughs in Dermatology and Cosmetology*". The Mayor of Edinburgh- **Rt Hon Lord Provost Frank Ross** was pleased to be a great part of our conference and delivered the welcome speech. His presence was highly honoured for both the organization and the participants. It wouldn't have been possible to succeed without the organizing committee, speakers, delegates, YRFs and the Edinburgh venue staff members, and media partners.

The scientific sessions of the conference include [Skin Cancer and Cosmetic Dermatology](#), [Plastic and Reconstructive Surgery](#), [Dermatological Diseases](#), [Skin cancer](#), [Dermatologic surgery](#), Case Studies and Reports, etc. Each session contains sub-sessions that comprise most of the topics under Dermatology and Skin Care. The research work of the speakers will come under either of these sessions to make the conference more organized and mastery. The Derma 2020 extends the invitation to the highly affiliated professionals from the academic and business category and the young researchers as well to develop and build their career in the right path. The awards for oral presentations, posters and symposia mould the conference as a unique gathering for the experts across the world to provide the international forum to analyse the research results, new ideas and innovations
