Conference Series is organizing “10th International Conference on COPD and Lungs” which is going to be held during May 25-26, 2020 at Kyoto, Japan. The theme of the conference is “Innovative Study on COPD and Clinical Research Issues”.

Conference Series LLC fosters research excellence and leadership by recognizing the outstanding researchers, exceptional graduates or early academicians who have distinctive enthrallment towards the conference themes. Nominees are judged on past accomplishments, research excellence and outstanding academic achievements. Researchers throughout the world who have been credited with outstanding achievements can make a significant contribution to the advancement of their field, thereby having a positive influence on the society.

To provide a strong professional development opportunity for early career academicians-meeting experts awards in different categories are announced such as **Expert Level** award is most prestigious award of the conference. The eligibility criteria for achieving this award is that one should have minimum of 20+ years of experience in the field of cardiology in the public and/or private sector. The receiver of this award should have a dedicated passion and should take initiative in researching the recent trends and developments towards the related subjects. You can nominate deserving of the award online. Followed by **Professional Level** award which is presented to recognize individuals who have made implemented an idea or innovative approach in the field of Pulmonology to encourage active involvement for the betterment of the field. The award should motivate individuals to strive to realize their fullest potential which could in turn be beneficial. Next is the **Scholar Level** award which will be presented to the research students who are specialists in the field of Pulmonology. Conference Series aims to offer the best platform for such students to expand their network by sharing research knowledge at a stage through their enchanting speech. You can nominate deserving of the award online.

To encourage women scientists and researchers by providing a platform where they can present their work and passion towards their research **Women Scientist** awards are presented for latest research projects with an in-depth analysis in the field of Pulmonology. The award **Outstanding Speaker** is recognizing individual who will present their projects, strategies, and schemes in the field of Pulmonology that has been implemented to improve long-term excellence. The individuals will be judged based on their research, their presentation skills, etc. **Best**

Keynote Speaker awards are usually based on the speaker's overview of future advancements and experiences.

Best Poster Presentation is a very influential way of sharing significant research. The poster gives a framework to visually summarize your work, to engage others in discussions, and an opening to entice others to learn more by reading the full paper. The student poster award will acknowledge work that best represents the purposes, goals, vision and adds new knowledge, contributes innovative research, and/or provides insightful contribution to the field by a bachelor's, master's or doctoral student. **Outstanding Thesis** award is recognizing for Masters/Ph.D./Post Doctorate thesis work presentations who will exhibit their research studies. This award is for the individual with best thesis which focused on the topic and gives good idea for general audience related to Pulmonology.
