Editorial

Aims and Scope

The Journal of Drug Metabolism and Toxicology is an open access OMICS International Journal. It is devoted to illustrating the importance of understanding drug metabolism and/or toxicology for drug action therapy, design, development and evaluation. It presents experimental and theoretical papers examining the factors affecting formation and disposition of drug metabolites and toxicity and possible effects of drugs administered to a human subjects or an animal.

Most published papers and apply their findings to real-world observations in humans and/or animals.

For additional information about The Journal of Drug Metabolism and Toxicology please visit: <http://www.omicsonline.org/article-processing-charges.php>

Journal of Drug Metabolism and Toxicity is a broad-based journal which was founded on two key tenets: 1) To publish the most exciting research with respect to the subject of Drug metabolism and toxicity; 2) To provide a rapid turn-around time possible for reviewing and publishing, and disseminating the articles freely for research, teaching and reference purposes.
