Description

I am here to tell you that curing cancer is no longer a dream. It's a reality with my new developed advanced priceless technology! I have been successfully treating and curing cancer for last 18 years, three in Europe and fifteen in USA. My Kostovic Acupuncture by Bio Electron's Laser, Corp., performed more than 40,000/forty thousand's hours in use with this KBTE Medical Laser Device. It is no side effects, absolute safe and no harm to the healthy cells, with no risk at all. This is new era in technology.

I have opened quanta light particles, and gotten images of elemental gluon and elemental quark, electron neutrinos, and different elemental bio chemical charges in the form of elemental plasma, etc. These values are from the complex sun quanta light particles, existing in our atmosphere.

I could film this again. What I have observed in the air is a kind of a flittering form, as well as in its normal form. This film would show these elemental particles as they penetrate into the human hair. Its elemental structure is opened and visible through the air and in the hair.

The KBTE device's unique process releasing bio electricity awakens dormant nerve cells which contain numerable neurons and these newly awaken "new neuronal branches" immediately begin to send new impulses throughout the Central Nervous System, CNS. These new neuronal impulses interacting with the KBTE's released by BA biological agent's amino and natural acids which have a crucial role in the rebuilding of the DNA and RNA, but this process is always after we have cleansed the tissue. The first process is cleaning away the dead cells and oxidized proteins from fiber tissue, and plaque from arteries, veins and capillaries, then can the second step of rebuilding the DNA and RNA is successful.

These high quality impulses, along with the strong powerful amino and natural acids are actually naturally occurring in the air and herbs in the certain spots around the world. One of those spots is in the Himalayas. There in Nature this combination happens where the Earth minerals irradiation interact with atmosphere, allowing the Sun Quanta light particles to hit the Earth at a specific angle making it possible for these people to have supply of such elemental irradiation through the hair directly into the brain.

In second step their fiber tissue by amino and natural acids from herbs is cleansed daily of the dead cells and oxidize proteins, as well as cleaning away the plaque from the channels in vascular system. Their Nature has created a natural form of this powerful "bio electricity". This is way that stronger impulses from CNS interact with natural acids from herbs through blood supply. Natural acids are conductor of finest bio electricity interact with enhanced impulses in this fashion produce kind of powerful bio electricity. In this fashion in natural way

such enhanced bio electricity is capable to get rid off and clean the fiber tissue from dead cells and oxidize proteins and plaque dispersing it, when we are aging. Without such process we are helpless and by aging we can't get rid fiber tissue of dead cells, oxidize proteins, and plaque, what significantly increase aging and developing aging as kind of diseases. It is proof we are helpless because of our arrogance and ignorance in science, as kind of inquisition era is repeated.

To fast aging as we experienced today is also kind of disease, and this research was done as top secret military research before and after WWII, from Germany, ex. Yugoslavia and Soviet Union. It was top secret Nazi research from 1935 to 1945, and from 1944 it become top secret military research from ex. Yugoslavia and Soviet Union.

I did research by myself with my own funds, and used basic knowledge I got from my father Ivo Kostovic who was working from 1944 for these two ex. Countries in Military Diplomacy. My private study on Nazi Quantum Mechanic in Physics from physicist Warner Heisenberg, I did in 1985/1986 in Berlin, as well as research and study on Electromagnetic of Nikola Tesla, open me the view, and I achieved this most secret and priceless technology ever emerged for mankind. They considered too fast aging is kind of diseases and directed research in this fashion. They have been right.

When we are younger our organism has capability to get rid of this dead cells and oxidize proteins from fiber tissue and plaque, but it is ended by thirties years of age. So we are in trouble without help of such natural phenomena as Himalayas, but my Center developed this priceless technology unique in the World.

This is clue, and we produced technology on this example of natural phenomena which is known in Himalayas, but never before discovered from any World's research experts group. In this Natural way its allows for some of Himalaya people healthy human life span from 100-110 years and more, as well as it is crucial preventing of the development of number of diseases, etc.

Areas in the CNS cleaned, interacting with the sun's quanta light particles igniting/stimulating/awakening dormant brain nerve cells, even from the next/"secondary life cycle" sequences. Awakened neurons residing within the awakened dormant brain nerve cells immediately start to release new impulses.

These stimulated neurons are "familiar" with sun's quanta light particles, their elemental structures recognize each other, and interact by elemental irradiation successfully. Awakened brain nerve cells in their structure has indestructible code to be directed on injured but cleaned spot and start to release impulses by own neurons. It is the reason they can start easily to interact and continue to awaken others while this quanta light particles continues igniting and enhancing the neuronal branches in the brain's nerve cells.

Our powerful KBTE Medical Laser technology is even greater than this which naturally has occurred for millions of years in the Himalayas. We have achieved this capability to awaken these sequences of new life cycles (Secondary Life Cycle Sequences). Every village, city, town, community, nation around the globe can now have this technology for their citizens. This amazing natural phenomenon does not need to only happen in a few spots around the world.

I took some photos and images of non-elemental and elemental particles, and elemental plasma. I would like to film this but it can only be done in a very special way. With today's technologically advanced highly sensitive film and high speed far infra-red digital camera it can easily be verified. With this equipment I can film a number of particles never seen before. The reason for this is simple their faint/slight structures makes it invisible, but with the KBTE's ability to release the finest bio electricity we can attract and attached on outside and inside structure of strings/threads of these particles in a process where they can show their structure. With the right equipment I can make visible never before seen light particles. This I strongly believe will totally change the story of the origin and creation of the human being, Nature and the Universe as Science knows it today. This will inform and change our current concept of human civilization, as we know it.

With funding this could be prepared in a month or so. If one needs some proof of just the general existence of elemental and non-elemental particles, well this could be filmed in a single day with proper filming equipment.

Even all those "experts" at Swiss, CERN can't come close to what I can prove with my KBTE Device. One will never see it by blasting it open (as they attempt at CERN), but rather to gently attract it with released "bio electricity" to make it visible, which only I can do! But to film the many elemental structures precisely, I would need a month of preparation to modify the KBTE equipment to use it in this filming process along with the proper film and camera equipment.

I have already been approached by the some Countries to set up a Center but nothing will be done before a KBTE contract has been finalized. My first contract must be my biggest the reason for this is due to the fact that the proprietary KBTE technology of Bio Electricity must be protected. As you can imagine many people have always been trying to steal this most amazing innovative technological discovery. This is the main reason technology is still secret.

I have put up with some minor stealing but major stealing I can fight only with the funds behind a big solid contract. Money is the only way to fight the good fight to keep my invention safe from thieves. There are many other applications for this technological discovery but I won't pursue anything else until this healing technology is well preserved.

My technology I am offering to sell internationally as kind of licensed technology, partnership, as well as we have developed and Non-Profit Company. I am open for negotiation on different issues. I am US citizen, born in region Dalmatia city Split in ex. Yugoslavia, and my origin is also Italian, and Persian/Asian.
