### Editor Note

The Arts and Social Sciences Journal is an international peer reviewed open access journal that publishes articles related to the latest developments in the field culture, literature, arts and other areas of social sciences. The current Volume 7, Issue 4 published 10 research articles, 1 thesis and 3 short communications.

Dagar and Yadav [1] focusing on the need and ways of adopting constructivism in the teaching and learning process. Schwartz [2] show the integration of Lesbians in a western context through all types of mainstream media such as film, prime-time television shows and Internet based web series. Dagar and Meena [3] study the extent to assess the effect of watershed on the level of employment, income and consumption of the farmers. Olatujoye Olawale, Fajobi Tolulope and Adeniran Adebisuyi [4] seeks to understand the role foreign aid intervention has played in development, challenges confronting the success of foreign aid intervention and more effective approaches that can make foreign aid intervention a success. Ali [5] talks about China Pakistan Economic Corridor (CPEC) that is pivotal to China's energy security owing to the growing row in the region of South China Sea among China and other regional and global players. Abebe Wolkanto [6] tried to portray the challenges African Union facing in the maintenance of continental Peace and Security in light of the Malian political crisis. Badr, et al. [7] study about the kindergarten for the population. Glynn [8] highlight the benefits of video games, including violent video games, and then suggest that the real cause of school shootings is America's obsessive gun culture. Djumabaeva [9] express some ideas on Gradable Contrariety and Synonyms. Agbionu, Joseph and Ifeyinwa [10] examined the manpower need and capacity building in Nigeria, the role of education in manpower development, the curricular problem of the Nigerian education system and how to adjust the curriculum to boost capacity building in Nigeria. Buchori, et al. [11] produce products such as digital applications of math games on mobile phones and digital applications of math games on the computer at the high school math courses that is valid used in mathematics education program at the University of PGRI Semarang and Semarang Sultan Agung Islamic University. Javad [12] state that post-modernism in international relations is based on the definition of its mission, production of new interpretations of world-textual and ambiguity about historical constructed aspect by which we understand this "World-Text". Atiqul Mobin [13] talks about the situation of religious minority with special focus on Muslim community and the process of

their ghettoization in Indian context. Buchori, et al. [14] produce products such as online math assessment for high school math courses that is valid or feasible to be used in all of mathematics education program in Central Java, which can produce human resources that is intelligent, creative, innovative and able to compete in the 21<sup>st</sup> century.
