With the successful completion of 2019 conference, the 8th International Conference on [Public Health and Nursing](#), hosted by the Conference Series was held during August 19-20, 2018 Singapore based on the theme “Impediment to Exploration of Public Health Nursing Challenges in Globalizing World”.

The event had a great success due to benevolent response and active participation that were received from the Organizing Committee Members along with Scientists, Researchers, Students and leaders from various fields of Nursing and [Healthcare](#).

Conference Series expresses its gratitude to the conference Honourable Guests and Keynote Speakers includes:

- Atique Ahmed, Fienberg School of Medicine- North western University, USA
- E Berggren, Stockholm County Council, Sweden
- Nigila Ravichandran, Institute of Mental Health, Singapore
- Lena Lund, Stockholm County Council, Sweden
- Frank van de Goot, Symbiant Pathology Expert Centre, Netherlands

Conference Series is proud to announce the upcoming “9th International conference on Public health and Nursing” to be held during November 18-19, 2020 at Singapore. The theme of the event is A track to the evaluation of Global Public Health Nursing modernizations and challenges.

The conference was supposed to be organize on April 29-30 but as per the health concern of our participants and because of the pandemic condition due to [COVID-19](#), we had to postpone till November in the hope that everything will be under control.

The [Public Health Nursing 2020 conference](#) is expected to provide great scope for understanding for the Leading world Doctors, Registered Nurses, Professors, Research fellows and many more from leading universities, Directors of Association and Societies, companies and medical research institutions, hospitals sharing their novel researches in the area of [Community Nursing](#), Healthcare & Medicine. Conference is offering Exhibition and Sponsorship opportunity for the interested organizations.

Public Health Nursing 2020 count on hundreds of delegates including keynote speakers, Oral presentations by renowned speakers and poster presentations by students besides delegates around the world.

The conference creates an ideal platform to share expertise addressing current advancements and innovative ideas involved in Nursing, Public Health, and Health Care. It will be a wonderful opportunity for all the delegates as it provides an international networking opportunity to collaborate with the world-class Nursing Associations.

Also, high-quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Nursing and public health are warmly invited for presentations at the conference. Public Health Nursing conferences allow nurses of all levels of experience to participate in an area of career and education growth that is not easily found within the structure of the workplace.

The program covered current and emerging research innovations in the field of [Public Health](#).

Public Health and Nursing give you the opportunity to Listen and participate in lively discussions at conferences which can give you new ideas and help to refine your existing concepts, and maybe even change your mind about some key issues in your field. This is a great chance to get a peek of what other people are working on. These ideas can be great inspiration for your own research.
