

6th World Summit on Genomics and Bioinformatics to be scheduled during October 13-14, 2020 | Cape Town, South Africa

Gil Atzamon

Researcher, Mount Carmel, Israel, E-mail: gil.atm@gmail.com

[Genomics 2018](#) featured two days of presentations from the eminent personalities from all over the globe whose research area is mainly focused on genomics and bioinformatics. The Speakers and Delegates who had attended the previous conference, which was organized by Allied Academies, made it a huge success. They explored their research work with the eminent personalities and found the concept and theme of the conference very interesting. The wide range of topics gave attendees the chance to learn about every aspect of genomics. We would like to announce that we are organizing 6th World Summit on Genomics and Bioinformatics on October 13-14, 2020 at Cape Town, South Africa and hope it will gain a huge response.

[Genomics 2020](#) is a unique and exciting opportunity, which will enlighten the world with recent advances in genomics and bioinformatics and inculcate new ideas. Moreover, Genomics 2020 Conference provides the participants a great networking with peers. We encourage physicians, nurses, researchers and scientists in the genetics and genomics field as well as patients to attend Genomics 2020 conference. It is only through an exchange of the widest variety of [research](#) we can offer the best program and benefits to our members and patients.

We are grateful to our Organizing Committee Members for their generous support and suggestions for the conference.

- Gil Atzmon, University of Haifa, Mount Carmel, Israel.
- Henry M Sobell, Emeritus Professor, University of Rochester, Rochester, USA.
- Michail Ponizovskiy, regional hospital, Kiev Ukraine.
- Jan Jacques Michiels, founder of the Goodheart Institute, Goodheart Institute & Foundation in Nature Medicine & Health, Rotterdam, Netherlands.

- Samia Temtamy, Cairo University, Oula, Egypt.
- Dr Sergey Suchkov, MD, PhD, Professor in Medicine, Medicine and Immunology, Sechenov University, Moscow, Russia.
- Felix Konotey Ahulu, University of Cape Coast, Kumasi, Ghana.

AIMS of the Conference:

- Sharing of scientific knowledge and experience in all areas applied to [Genomics and Bioinformatics](#).
- Discussing and debating scientific advances and current research in Genomics and Bioinformatics.
- Strengthening and expanding the human network of all involved in this field in Europe and globally.
- Providing opportunities for professional development.
- Providing a forum for scientific exchanges on recent Genomics concepts.
- Promote the role Genomics in day to day life.

Benefits of Attending:

- Exchange ideas and network with leading Genomics researchers, Evaluators from more than 40 countries.
- Discuss quality initiatives that can be applied in the practice.
- Discuss ways to collaborate in putting quality initiatives in place throughout the Genomics and [Bioinformatics](#) research.
- Participants can gain direct access to a core audience of professionals and decision makers and can increase visibility through branding and networking at the conference.

- Learn and discuss key news and challenges with senior level speakers.
- With presentations, panel discussions, roundtable discussions, and workshops, we cover every topic from top to bottom, from global macro issues to strategies to tactical issues.

[Genomics 2020](#) will provide an excellent platform for global networking and exchanging latest innovations in Genomics and Bioinformatics industry. Genomics 2020 welcomes all the experts in this field to explore their research and views towards the theme of this congress.

Supporting Journals:

- Journal of Genetics and [Molecular Biology](#).
- Research and Reports on Genetics.
- Journal of Cell Science and Mutation.
