

2nd World Summit on Neurology and Mental health

Uqbah Iqbal,

Universiti Kebangsaan Malaysia, E-mail: uqbah@siswa.ukm.edu.my

After finishing of our previous conference, we are getting a huge response from the speakers\attendees and we happily announce that, we are organizing a conference on “2nd World Summit on Neurology and Mental health” was scheduled on September 28-29, 2020 in the most attractive city of Singapore City, Singapore focusing with the theme of: “Interpretation & Interception of Neural Demise”

Conference series is a scientific association well known for promoting scientific temperament and has been performing very well in Business and Management and may be a good platform for our readers. We gladly welcome all the attendees around the world for the hearing of the foremost recent innovations and inventions in the field of neurology, psychology and mental health. This Conference will provide a place for the exchange of ideas and views by leading scientists, researchers and also from the academicians around the globe. There will be many outstanding keynote speakers and well known leading scientists and experts from various places of the globe to share their ideas and talk about various aspects related to the field of Neuroscience. Our aim is to gather peer researchers, young scientists, academicians & industrialists to meet, discuss and share the ideas related to it and the knowledge that's still more to be revealed. We heartily encourage you to attend and contribute to one of the major events of 2020 in the field of Neurology, psychology and mental health. The conference will reveal the present and future aspects in the field of Neurology which are the need for instant and better treatment.

Who and Why??

Neuro summit 2020 brings together the specialists from all the aspects to discuss about the future of Neurology and Psychology in today's world to thrive and survive with a better health. Directors specialists, Investigators, Post-Doctoral Fellows, Research and Diagnostic Laboratories, Clinical Fellows, Students, Biomedical Research companies, Healthcare Institutions, Market Research and Consulting Firms, Pharmaceutical Companies and all other interested participants willing to enhance and update the knowledge may attend the conference.

It is specially designed for postgraduate students (MSc, PhD...) designed to provide students with the opportunity

to present their work in a friendly, supportive forum and to receive feedback from mentors and peers.

Other important skills: you need to be a good scientist includes scepticism, creativity, problem-solving, self-management, and objectivity

The Young Research Forum offers for all young researchers and scientists and students for possibility to meet and discuss about their own research topics and methodologies to share and develop their ideas, learn from each other and gain knowledge from eminent speakers. Role of Young Scientist:

Young scientists will play an important role in today's research and innovations systems. Understanding how young researchers can achieve and contribute to the knowledge landscape, and what obstacles they encounter within the process across the globe.

Participation in the symposium is open to all graduate students who are graduates in field of Neuro Science from certified universities. Applicants must be recent graduated students.

Our Conference Series categories seek to acknowledge Scientists, Researcher, Professor, Industrialists, and Students in various scientific fields who are making an outstanding contribution to the world of Science for the better and healthy future.

It would be an exposure to the young and enthusiastic researchers to explore the leading edge research and technology within the interdisciplinary approach. YRF will also give them an opportunity to strengthen their research also as academic network with other experts both in their core and interdisciplinary areas.

With best regards,

Riya Wilson | Program Manager
