

9th Annual Conference on Stem Cell and Regenerative Medicine

Admon Arie

Department of Rheumatology, Indian Institute of Medical Education & Research, New Delhi, India, E-mail: admonarie@yahoo.com

9th Annual Conference on Stem Cell and Regenerative Medicine was organized during September 25-26, 2017 at Berlin, Germany. The conference was marked with the attendance of Editorial Board Members of supporting journals, Scientists, young and brilliant researchers, business delegates and talented student communities representing more than 25 countries, who made this conference fruitful and productive.

This conference was based on the theme "*Frontiers in Stem Cells & Regeneration*" which included the following scientific tracks:

- Stem Cell Therapy
- Stem cell
- Stem cell treatment
- Somatic Cell Therapy
- Tissue Regeneration
- Regeneration and Therapeutics
- Tumour cell science
- Cell & Gene therapy
- Stem Cell Biomarkers
- Stem Cell Bio banking & Tissue preservation
- Stem Cell Technologies
- Stem Cell Nano-Technology
- Stem Cell Apoptosis and Signal Transduction
- Tissue science & Engineering
- Novel Approaches in GTR
- Potential Applications of Stem cell Therapy
- Regenerative Medicine and Market
- Stem cell-Bioinformatics
- Biomaterial Engineering

The [Organizing Committee](#) would like to thank the moderator Dr Andriana Margariti (Queen's University Belfast, UK) and Dr Francesco Neri (Leibniz Institute on Aging – Fritz Lipmann Institute, Germany) for their contribution which resulted in smooth functioning of the conference. The conference proceeded through various scientific sessions and plenary lectures, of which the following topics were highlighted as Keynote presentations:

Richard George Pestell - CCR5 governs stem cell characteristics, therapy resistance and metastasis of breast cancer (Pennsylvania Cancer and Regenerative Medicine Research Center, USA)

Roohi S Ahmad- Vascular tissue regeneration from implantation of 3D bio-printed stem cell grafts in rhesus monkeys Sichuan 3D Bio-printing Institute, China)

Y James Kang -Rejuvenation therapy for ischemic heart disease (Sichuan University, China)

Various sessions were chaired by: **Richard George Pestell** - Pennsylvania Cancer and Regenerative Medicine Research Center, USA; **Tamara Lah Turnšek**- Mednarodna podiplomska šola Jožefa Stefana, Slovenia; and co-chaired by **Joseph Choukroun**- Pain Clinic, France; **Viacheslav M Mikhailov**- Institute of Cytology - Russian Academy of Sciences, Russia
[Conference Series LLC](#) Ltd has taken the privilege of felicitating [Stem Cell Congress 2017 Organizing Committee](#), Editorial Board Members and Keynote Speakers who supported for the success of this conference.

The esteemed guests, keynote speakers and researchers shared their innovative research and vast experience through their informative presentations at the podium of [Stem Cell Congress-2017](#). We are glad to inform that all accepted abstracts for the conference have been published in Journal of Stem Cell Research & Therapy: **Open Access** as a special issue.

We are also obliged to various experts, company representatives and other eminent scientists who supported the conference by facilitating the discussion forums. We sincerely thank the [Organizing Committee](#) Members for their gracious presence, support, and assistance. With the unique feedback from the conference, Conference Series LLC would like to proudly announce the commencement of the "**International Conference on Cell Science and Molecular Biology**" to be organized during **November 25-26, 2020 at Rome, Italy**. Mark your calendars for the upcoming **Cell Science 2020** Conference; we are hoping to see you soon.
