

2020 Conference Announcement of Biofuel 2020

Dr. Kestur Gundappa Satyanarayana

Professor, Poornaprajna Institute for Scientific Research, India, E-mail: kgs_satya@yahoo.co.in

By analysing the importance of Biofuels and Bioenergy, Meetings International is organizing 11th [International Conference on Biofuel & Bioenergy](#) (Biofuel 2020) during **February 19-20, 2020 in Dubai, UAE** based on the theme "*Next Generation Fuels & Chemicals*". Scientific sessions of Dubai Biofuel 2020 includes Photovoltaic Market Trends, Vision for Biofuels and Bioenergy, Global Renewable Bioenergy Trends, Future Sources of Biofuels and Bioenergy, Global Biofuels and Bioenergy Elites, Statistical Review of World Biofuels and Bioenergy, Threshold of a New Age of Biofuels and Bioenergy, Global Biofuels and Bioenergy Industry, Renewable Biofuels and Bioenergy in the Global Energy Transformation & Renewable Biofuel and Bioenergy Information on Market and Future. [Dubai Biofuel Meeting](#) embraces with Keynote Session, Oral Session, Poster Session, Young Researchers Session and Exhibitor Session.

Dubai is hosting the [Biofuel Conference 2020](#) During February 19-20. Dubai is the most beautiful city in the United Arab Emirates. Dubai is essentially a desert city well with superb infrastructure, liberal policies that became popular for its excellent tourist amenities. Dubai is famous for sightseeing attractions such as the Burj Khalifa (the world's tallest building) and shopping malls that come complete with mammoth aquariums and indoor ski slopes.

Biofuels and Bioenergy area unit designed to switch gas, diesel oil and coal, that area unit known as "fossil fuels" as a result of they're made of animals and plants that died millions years ago. Biofuels area unit created largely from plants that have

simply been harvested. There are three main types of biofuel. Ethanol, biodiesel, and bio jet fuel. Global Biofuel and Bioenergy generation has increased by 6.7% between 2015 and 2016, but global CO₂ emissions are also on the rise. Biofuel and Bioenergy 2020 focuses on bringing together renewable and non-renewable energy experts, policy makers, economists, academicians and students to discuss the current state of research and development in Biofuel and Bioenergy strategies. The global renewable Biofuel and Bioenergy market was valued at \$928.0 Billion in 2017, and is expected to reach \$1,512.3 Billion by 2025, registering a CAGR of 6.1% from 2018 to 2025.

Biofuel 2018 and Biofuel 2019 has been concluded with the discussion on Advanced Biofuels, Algae Biofuels, Aviation Biofuels, Biomass Technology, Biogas, Biodiesel, Biohydrogen, Biorefineries, Bioreactor, Bioethanol Economics, Biomass Technologies, Bioenergy Conversion Bioenergy Transition and many more with the companionship of our Organizing Committee Members, Keynote Speakers, Oral and Poster Presenters. With the unique feedbacks from Biofuel 2018 and Biofuel 2019 would like to announce the commencement 11th International Conference on Biofuel & Bioenergy (Biofuel 2020) during February 19-20, 2020 in Dubai, UAE based on the theme "*Next Generation Fuels & Chemicals*".
