

Awards on International Conference on Neonatology Research

LB Sukla

CSIR-Institute of Minerals and Materials Technology, India. E-mail: suklaib@yahoo.co.in

The Neonatal 2020 contributes the opportunities to determine advance techniques, research, and developments in the healthcare field of Paediatrics and Neonatology . All over the world these new methods and advanced techniques will be used to ensure the health of children.

This Academic event includes imperative Keynote forums, plenary presentations, poster presentations, workshops, exhibitions and more. By participating in forums, sharing research and collaborating, the research community will be much benefited.

Organized with the motive of accentuating the research with the help of international Pediatricians, neonatologists, surgeons and researchers by bringing together all the related experts and professionals under a single summit to emphasize the developments in health care and the future holds of Surgery

Pediatrics is the branch of medicine dealing with the care of infants, children and adolescents and the prevention and treatment of their diseases. Although most thinking and analysis of health care is taken from the adult health care system, issues surrounding pediatrics are unique and challenging and should be treated differently than adults.

A major challenge the pediatric healthcare community faces is in relation to Medicaid funding. While the cost of health care for most children is relatively low, those who require

hospitalization or specialty care experience a tremendous increase in total cost. Additionally, with a focus on preventative medicine, more resources need to be allocated to pediatrics. Medicaid funding for children estimates about 20 percent of total funds, yet children make up about 60 percent of enrollees Typically, nursing homes and geriatrics .

This award will be given to upcoming scientists, researchers and experts having 10+ years research experience in the field of Neonatology . Our conference would like to provide best platform to share their ideas and views in nurturing the biotechnology with latest research and innovation. Presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme of the conference along with 5 minutes panel discussions. You can nominate for award through online.

Our Conference provides a unique platform for women scientists for presenting latest research projects with an indepth analysis. We cordially invite women scholars and scientists from Universities/ Industries to who have 10+ years of research experience to join the forum. We are happy to encourage our women scientist's participants through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. Women Scientist can nominate deserving of the award through online.
