Editorial Note

Otolaryngology is international journal for those Cleft Lip, Related journals of Cleft Lip, Laryngology, Pediatric Otolaryngology, Otolaryngology, Neurotology, Otitis Media, Rhinitis, Larynx, Cough Remedies, Decongestants, Sinus Infections, Sinus, Sinus Headache, Strep Throat, Cold Sores, Ear pain, Ear Infection.

Otolaryngology publishes original articles, review articles, case reports, short communications, etc.

I am pleased to mention that during the year 2019, 7 issues of volume 9 were published.

In 2020 this journal is ready to publish number of articles or papers, Now it is At the stage of volume 10 issue 3 for publication of articles.

Scope:

Cleft Lip

Cleft lip is facial and oral malformation that occurs during early stages of pregnancy, while the baby is developing inside the mother. A cleft lip happens if the tissue that makes up the lip does not join completely and thus causes an opening in the upper lip that goes through the lip into the nose.

Laryngology

Laryngology is the study of the larynx. It is a branch of medicine that deals with diseases and injuries of the larynx, often called the voice box. The larynx is vital in the body's production of sound.

Pediatric Otolaryngology

Pediatric Otolaryngology is a part of Department of Otolaryngology Head and Neck Surgery. Pediatric ENTs use most sophisticated techniques to treat children with common illnesses such as tonsillitis, sinusitis and ear infections.

Otolaryngology

Otolaryngology is the area of medicine especially concerned with the anatomy, function, and diseases of the ear, nose, and throat and related structures of the head and neck, including the sinuses, larynx, oral cavity, and upper pharynx. It can be often called as otorhinolaryngology.

Neurotology

Neurotology is the branch of clinical medicine which studies and treats neurological disorders of the ear. It is sub-specialty of

otolaryngology and is closely related to otology. Neurotologist is a board-certified otolaryngologist who provides medical and surgical care of patients, both adult and pediatric, with diseases that affect the ears, balance system, temporal bone, skull base, and related structures of the head and neck.

Larynx

Larynx/ voice box is the part of respiratory system which is a tube-shaped organ in the neck that holds the vocal cords. It is located between the trachea and the pharynx. Laryngeal disorders include various benign and malignant tumors.

Cough Remedies

Cough also known as tussis is a sudden and repetitively occurring reflex which helps to keep the respiratory passages free of irritating material. But too much coughing may mean you have a disease or disorder. Coughs can be either acute or chronic. Honey appeared to be as effective as a common cough suppressant ingredient, dextromethorphan, in typical over-the-counter doses.

Sinus Infections

Sinus infections are caused by virus, bacterium or fungus. They grow within the sinus and causes blockage of sinus ostium. The symptoms include pain in the sinuses, fever, sore throat, sinus headache and cough.

Google Analytics

According to the Google Analytics, More than 8,982 readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on public Otolaryngology. Open Access Journals gaining more Readers and Citations 700 Journals and 15,000,000 Readers Each Journal is getting 25,000+ Readers

Most of the papers are from United States of America, India, turkey, china, Saudi Arabia where Medical and Health related research is more. Average publication of paper will be 45 days and after accepting the paper will be under per reviewed process for 21 days, then the accepting paper or article will takes 7 days for publication.

We develop this journal for awareness and to help many peoples and students about typical types of ENT infections and symptoms and how to diagnose these disorders.

Now Otolaryngology is one of the major things in our study life and research life because it open parts of our body and it may damage our inner body also.

2020 Plan

We are promised with you we will defiantly publish number research articles, review, Short communication etc type of articles and we will surely develop our journal reader database and analytics.

Promoting our Journal

As of today's society, the use of social media has become a necessary daily activity, it is a valuable tool locally and worldwide, so we will

communicate with the Researchers, Students, Scholars, Scientists, Professors, Deans, Institutes, Universities, and all the members related to the subject through LinkedIn, Twitter, Face book, My Live Chart, WhatsApp. We post the upcoming Issue and Journal highlights and current research works in social networks, So that all the members can work on the research and submit their papers.

I would like to express our gratefulness to the authors of articles published during the past years, and to acknowledge generous help which both the authors and editors obtained from the peer-reviewers.
