Author Details:

Nachimani Charde, Nottingham University UK, Malaysia Campus.

Nachimani Charde was graduated with Bachelor of Engineering in Electronics System Design Engineering from Northumbria University UK, year 2002 and Master of Science in Electrical and Electronics Engineering from Southern Pacific University USA, year 2007. This research outcome is partial results of Doctoral research program at Nottingham University UK, 2012 at Malaysia Campus. He is a Member of IEEE USA and Student Member (44779) of IEM Malaysia.
