Letter

Dear Editor,

I'm writing this letter to express my feeling towards the journal, as I do follow the journal and its updates since a long time.

In the recent times whole world is being shaken with the pandemic of COVID-19, most of the operation got aborted and many people are being forced in to poverty due to their job loss but to a great surprise the journal is managing well to supply the general public with required amount of information regarding the new updates in the field and it also seems to be coping-up with the situation very well.

We could clearly find its progress by the timely release of issues and invaluable updates at these critical times like this I really appreciate your efforts, hard work and determination in providing new and scientific information to public.

Journal of Addiction Research and Therapy being a good and reputed journal we expect it will be doing much better in the upcoming issues with a good number of articles being published in each issue. We hope all the mess created around the world due to the pandemic situation gets settled soon and could be finding much more interesting updates from one of the world's best journal.

Thank you for your time and consideration.

Yours Sincerely

Akhila Anji Reddy. V
