I hereby express my great interest in continued service to the Journal of Mycobacterial Diseases as an Editor. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and healthcare communities.

To further enhance the prestige in the scientific world, I strongly recommend this journal to be indexed in PubMed Central. The editors, editorial board members and the Journal staff have worked extremely hard for the journal to establish its high professional standing. The papers published in the journal are of high quality and have an international standing the field of Mycobacterial Diseases. The journal is benefiting graduate students, established scientists, physicians as well as health care workers in the field.
