Dear PubMed Central,

I am a corresponding author of a research article and editorial board member for the Journal of Obesity and Weight Loss Therapy. I am pleased with the contents and believe that the topics are of high importance to the scientific, biomedical research community especially because obesity is now considered a clinical disease.

I strongly recommend that the Journal of Obesity and Weight Loss Therapy to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

Sincerely,
