To whom it may concern:

I hereby express my great interest in continued service in Biochemistry & Pharmacology: Open Access Journal as an Editor in Chief. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

Most sincerely,

A handwritten signature in black ink, appearing to read "Jie Wu", with a large, stylized flourish at the end.
