

Letter of Recommendation

With great interest I noted Journal of Pain & Relief is constantly improving and is running ahead with better and many quality publications. There are many researchers are dealing with pain studies, but not enough and good quality journals for the papers publishing in this field. I'm so glad to know that the Journal is of Pain & Relief now heading towards indexing in PubMed!

I hereby express my great interest in continued service in Journal of Pain & Relief as an Editor. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. We also appreciate the Chief Editor-Dr. Xiulu Ruan, other editorial board members and journal staffs have input hard works to establish its high professional standing. I'll look forward to continue working with you to elevate the journal to higher levels.
