July 10, 2013

Dear Sir,

The Journal of Drug Metabolism & Toxicology (JDMT) is an Open Access journal and aims to publish most complete and reliable source of information on the discoveries and current developments in the mode of original articles, review articles, case reports, short communications, etc. in all areas of the field and making them freely available through online without any restrictions or any other subscriptions to researchers worldwide.

As an editor, I have experienced its state of art submission procedure and rigorous peer-review process. I strongly recommend this journal to be indexed in PubMed.

Please feel free to contact me if I can be of assistance on this matter

Sincerely yours,

Honglian Shi, Ph.D.
Associate professor
