Dear Sir/Madam,

I have been intimately involved in the birth and development of the *Journal of Palliative Care & Medicine*, and am very pleased to recommend the *Journal* for indexing in PubMed. To my best judgment this new journal has withstood all the criteria to be considered as a solid peer-reviewed international journal.

I have no doubt that the *Journal* deserves this kind of upgrading and recognition for its significant contribution to the global literature on palliative care and medicine.

Sincerely,

Prof. Michael Silbermann
Executive Director
