

Lisbon, July 2013,

Dear Madams, Dear Sirs,

As an Editor of the *Journal of Applied & Computational Mathematics*, I would like to unequivocally state that this journal maintains, since its beginning, high quality standards and therefore meets the requirements needed to integrate the most reputed indexing platforms.

In particular, it should be stressed that the editorial board members and journal staff have worked very hard for the journal to establish its high professional standing and thereby I recommend the indexation of this publication in the most important databases in the area of applied mathematics.

With my best regards,

*Orlando Gomes*
