

22 July 2013

To Whom It May Concern:

I am writing to strongly support the recommendation that the *Journal of Earth Sciences and Climatic Change* be indexed on all appropriate indexing platforms. As the Editor-in-Chief of an indexed journal (*Journal of Occupational and Environmental Medicine*) I understand the significance of indexing for a journal and feel that it is most appropriate for this journal.

Thank you for your kind consideration.

Sincerely,

Paul Brandt-Rauf, Dr.P.H., M.D., Sc.D.
Dean of the School of Public Health
Professor of Environmental and Occupational Health Sciences,
Medicine, Earth and Environmental Sciences, Bioengineering
and Chemical Engineering, and Public Administration
