

**Universitat
de Lleida**

Scholars need the means to launch a new generation of journals committed to open access, and to help existing journals.

Journal of Fisheries & Livestock Production includes a wide range of fields in its discipline to create a platform for the authors to make their contribution towards the journal and the editorial office promises a peer review process for the submitted manuscripts for the quality of publishing. It aims to publish most complete and reliable source of information on the discoveries and current developments in the mode of original articles, review articles, case reports, short communications, etc. in all areas of the field and making them freely available through online without any restrictions or any other subscriptions to researchers worldwide.

Pere M. Parés-Casanova

Associate Professor

Dept. of Animal Production

Universitat de Lleida (Catalunya, Spain)
