Bethesda, MD U.S.A. 20894

It gives me great pleasure to inform you that I am serving in the editorial board of one of the open access journal of the Omics Publications the Journal of Cancer Science and Therapy for the last three years. I have found the papers published in the journal are of high standard with authors from cosmopolitan distribution. I have written few editorials during the last two years on contemporary issues which were highly appreciated by the scientific community globally. The editorial board members and journal staff have worked very hard for the journal to establish its high professional standing and there by recommending this journal to be indexed in PubMed.

I wish your kind attention for early indexing in PubMed.
