8600 Rockville Pike
Bethesda, MD U.S.A. 20894

Dear Sir/ Madam,

It is my pleasure to write about the Journal "Surgery: Current Research", published by OMICS Group Journals, Foster City, CA. I am associated with this journal since its inception, and witnessed its metamorphosis. The journal is publishing quality articles, and has consistently maintained its high standards. The journal is indexed by many citation services and online search programs. Medline, Pubmed and PMC services are the largest and most popular indexing system and reference databases in the field of biomedical sciences and research. Our journal therefore would be honored by its inclusion in your data-base.

I strongly recommend this journal to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing. Additional information can be obtained from the editorial office.

Thanking you for your attention.

Sincerely,

Suresh G. Joshi, MD, MS, PhD
Director, Surgical Infection Research
And Bacterial Pathogenesis,
Member, Editorial Board, Surgery: Current Research
