I hereby express my great interest in continued service on the Editorial Board of Journal of Leukemia. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in Pubmed Central. We also appreciate other editorial board members and journal staffs have input hard works to establish its high professional standing. I will look forward to continue working with you to elevate the journal to higher levels.
