To whom it may concern,

I am writing this letter to you in support of the Journal of Obesity and Weight Loss Therapy. Having previously published an article in this journal (Drake JC, Benninger L, Williamson DL. 8-Weeks of β -GPA Treatment Reduces Body Mass While Positively Altering Translation Initiation in Obese Skeletal Muscle. doi:10.4172/2165-7904.1000101), I have no complaints nor concerns. Therefore, I strongly recommend, without reservation, that the Journal of Obesity and Weight Loss Therapy to be indexed in PubMed Central. The journal staff and editorial board members have worked tirelessly for this journal to establish its high professional standing.

If you have any further questions regarding this, please feel free to contact me.
Best regards,

A handwritten signature in black ink that reads "David C. Williamson".
